Manual, including those changes on the quiz and final exam, and will forward to Ms. Walters for review. Then the documents will be sent to the full committee for review before dissemination to LLAM entities. Dr. Zickafoose will correspond with DDDS and the DHAFA regarding specific questions/requests.

Non-FDA Approved Medication Administration Policy

Dr. Zickafoose read the inquiry regarding LLAM trained UAPs being able to give non-FDA approved medications-specifically homeopathic meds. Members agreed this was permitted as long as there is a prescription written for the medication and this includes both prescription and over the counter medications. The LLAM Training Manual statement is on page 16. No changes are needed in policy.

LLAM Training Instructors

Dr. Zickafoose read the email from DDDS requesting to use a trainer who is not a nurse paired with a LLAM trained RN instructor. Ms. Walters commented she is a LPN, chair of the committee and still cannot teach LLAM. Members discussed this request and recommended the skilled DDDS trainer sit in on a class and observe the LLAM trained RN instructor to provide feedback and coaching on teaching techniques. However, the skilled DDDS trainer is not permitted to teach the class. Members also stated each course should have an evaluation and it should be used for course improvements. Dr. Zickafoose also commented the original committee considered who could teach LLAM and determined it should be consistent with the requirements for other nursing programs approved by the board.

Other Business before the Committee: Ms. Blackmore asked about the new legislation pertaining to injections. Dr. Zickafoose provided committee members with the statute §1921 and §1932. Ms. Garvey asked for a list of LLAM Instructors which Dr. Zickafoose provided. She will also get the list of facilities requested from the previous meeting.
